Experience

Cloudberry Solutions

May 2023 - Present

AWS Backend Developer - Serverless Microservices

Remote

- **Backend Development:** Led serverless microservices development using AWS technologies (Lambda, API Gateway, S3, SNS, SQS, CloudFormation, DynamoDB, RDS, CloudWatch, CloudFront).
- **Infrastructure as Code:** Wrote CloudFormation templates for provisioning and managing project components.
- **Authentication & Feedback:** Implemented user authentication with AWS Cognito and developed a feedback system with audio-to-text conversion via AWS Transcribe.
- **API Development:**
 - **Loyalty Program APIs:** Created APIs for managing business loyalty programs, including coupon generation, redemption, and visit tracking.
 - **Review & Feedback APIs:** Developed APIs for handling customer reviews (including audio) and generating QR codes for feedback submission.
 - **Customer APIs:** Built APIs for displaying business details, reviews, and menus.
- **Customer-Facing System:** Developed a solution for customers to log in, submit feedback, and access loyalty rewards, with business dashboards to manage feedback and coupon redemptions.
- **Database Management:** Worked with PostgreSQL to manage business data, ensuring high availability and performance.
- **Tools & Monitoring:** Conducted API testing using Postman, monitored performance with AWS CloudWatch, and maintained version control with Git and GitHub.
